## INCREASE OF FOLK AND LEVIN'S BUSINESS.

In order to satisfy the great demand of the public for a complete circulating library the above firm saw fit to order 500 volumes of the best known standard works, which will arrive here in course of next month, comprising histories of all known countries, lives of the most eminent men, speeches by Daniel Webster, Henry Clay, Grant, Macaulay and others, Cicero's orations, American eloquence, American oratory, ancient classics, travels, etc. In addition to the circulating library, they also keep on hand a very large stock of stationery of all kinds, school books, varieties of imported cigars and tobacco. A splendid assortment of toys, music and plain albums and diaries for 1874 are also to be found at the above place, Main street, opposite Wells, Fargo & Co's.

d22-1 w

## LOOK OUT FOR THE HOLIDAYS.

Genue Havana cigars can only be found at H. Michaels, as that line is his specialty. He has no variety store mixed up with imitation cigars, and selling them for genuine, but he is the only Pioneer Cigar Store, and sells more cigars than all the others put together.

d1f.

## Gents' furnishing goods at Jas. Finlayson's.

d8-1m

## FOR THE HOLIDAYS.

P. Heitzelman, City Jeweler, has just received a large stock of watches, jewelry, diamonds and silverware which he offers to sell cheaper than any other house. Call and see for yourselves before purchasing elsewhere.

d17-1m

## Carpets and oil cloths at Jas. Finlayson's.

d8-1m

## At Burrage's Drug Store, Main street,

directly opposite Lacour street, is the largest and best assortment of pure drugs and patent medicines; also perfumery, fancy goods, paints, oils, turpentine, lamp chimneys, etc.

## LOCAL MINING REVIEW.

For the Week ending Dec. 28th, 1873.

The heavy rains of the past few days have had the effect to keep nearly everybody in doors except such as had business compelling them to be on the streets. The recurrence of the annual holiday has had its bearing upon the amount of work done in the district. The strike in the Lightner shaft of the Raymond & Ely has proved to be an important affair, as the places of the strikers were supplied without difficulty, and the attempt to form a miners' union or league here seems not to have made much progress; at least so it is said on the streets. We do not undertake to speak knowingly on the subject, since the chief movers in the matter exhibited such bad taste as to object to any report being taken and published of their proceedings. Returning to mining business proper, we are happy to state that sinking and drifting in the various mines continues, notwithstanding the inclement weather above ground. Confidence in the richness and permanency of our mines remains firm, despite the machinations of the bulls and bears around the San Francisco Stock Board. With the active resumption of business after the holidays, we may reasonably anticipate increased activity in mining operations here.

The weather has been such during the week as to render it almost impossible for anything like a full report to be given of the mines.

The bullion shipments for the past week, owing partly to the heavy state of the roads, have not been up to the average, amounting to \$73,249.60, when the average for the year now closing cannot be less than \$100,000 weekly.

PORTLAND.—From the 100-foot level a winze has been sunk 303 feet in ore, the vein averaging from 2 to 3 1/2 feet wide. The ore for the last few feet in the bottom has greatly improved, and it is now of the class recognized as free milling ore and of superior quality. About 60 tons of first-class ore is now on the dump and as much more of second-class, the former giving average assays of \$250 per ton. Three shifts are at work. They are sinking a winze, and will cut the ledge in the working shaft at a distance of about 240 feet. Only such ore is being taken out as is met in the process of sinking and drifting. Owners of stock in the Portland are holding on to it, being confident that it is a valuable mine.

RAILROAD MINE.—This claim was located some months ago by several of our old resident prospectors, and they have steadily worked the same up to this date. The mine has got to the depth of 22 feet, with a ledge showing good indications for a rich strike before 50 feet will be sunk. Probably but few persons know where the Railroad mine is situated, and we give the information: It is about 350 yards distant from the Sunbeam, and in a north-westerly direction about 300 feet from the Silver Peak. The shaft has been sunk 95 feet, and about two feet from the bottom the ledge was struck and ore assaying \$50 per ton extracted. Within the next thirty days the company will be incorporated, the necessary capital secured and work on the mine prosecuted vigorously.

ALPS.—During the week a rich ledge was cut in the drift from the main shaft. Drifted on the ledge 30 feet. The ore vein is from 18 to 28 inches wide, with \$200 ore in sight. They are building a permanent ore dump, and as soon as that is completed, they will take out from 12 to 15 tons of ore per day. They are now assaying ore at the old dump. They will forward and have milled immediately some 300 tons. The ore from this mine, worked last spring, pulped \$143.

CHIEF OF THE HILL.—A contract has been let to sink a shaft 200 feet from the level of the tunnel, which has already reached a depth of 20 feet. The prospects are good at the present depth. The Magnet mill commenced crushing ore for this company on Friday. We will give the result in our next issue. From the character of the ore bullion in paying quantities will no doubt be produced.

MONTANA.—We are informed by Mr. Watteliet, Superintendent of the Montana mine, that he has let another contract to sink the main shaft 50 feet deeper. The shaft is now 100 feet deep in quartzite and quartz, and all the indications point to the close proximity of a large body of ore. The work will be prosecuted night and day.

POCIE CHAMPION.—The main shaft in this mine, which was started about the 1st of October last, has now attained the depth of 230 feet. No shaft in the camp has been sunk with such rapidity, and at the present rate of progress no long time will elapse ere the vein is reached, and "another strike" be chronicled in our camp.

GRAY & BISHOP.—This mine is being worked vigorously. Three shifts of men are kept constantly at work. The indications are very favorable for a permanent ledge. Mineral presents itself in different portions of the mine, assays from which give satisfactory results.

SPRING MOUNTAIN TUNNEL.—Our last review gave a full description of the workings on this tunnel. Superintendent Phillips feels confident that within the coming week he will make a rich strike.

SILVER PEAK.—Work is being carried on briskly. No change of special note has presented itself during the past week.

NEW RESTAURANT.—Mrs. Turgone will open the Capital Restaurant, Lacour street (adjoining Mrs. Ward's), this afternoon. Give the new restaurant a trial.

SEASONABLE.—The close of the year is a reasonable time in which to take a retrospect of the past, to cast up accounts and see how the finances stand. In looking over our books, as probably nearly every business man has done, we are almost amazed to find so great a number of delinquents on our subscription list. Many are in arrears for over a year, and not a few are indebted for two or more years' subscription. We purpose, now that the New Year is about being ushered in, to take a "new departure," and strike from our list all subscribers who are in arrears. The expense of the paper upon which the Record is printed is so great by the time it reaches us from either San Francisco or Chicago, that we cannot afford to give it away, much less pay for setting the type, press work and mailing, unless payments for subscriptions are promptly made. Our terms are in advance, but we have deviated from that rule too often for our own pecuniary good. If the paper is not regarded as worth the price of subscription, the only proper way to do is to discontinue it. Then no complaint can properly be made. We will say, however, that the beginning of the New Year is a good time for commencing a subscription to the Record. A file of the local paper in any town for a year is a valuable index to its history. Its columns would be sought after for information with great avidity in after years. Pocie is destined to become the railroad and mercantile center for a large section of country, and an outline of its rise and progress will be highly interesting. The DAILY RECORD will best furnish the information to be surely sought after in the future.

LEFT.—Mr. Sam Ferguson left Pocie day before yesterday for Virginia City to take the foremanship of the Gould & Curry mine. Mr. Ferguson has had many years experience in mining. He was Superintendent of the Chloride Flat Consolidated on Treasure Hill, and was for some time connected with the Savage mine in an official capacity. He bears an excellent reputation in Pocie. His work on the Chief of the Hill, where he has been employed for some time as foreman, shows conclusively that he fully understands his business. We trust Sam will meet with success, and at some day not far distant return to Pocie.

THEATRE.—The weather permitting, "Milky White" and the "Siamese Twins" will be presented on Monday evening. The company have had constant re-hearsals, and we anticipate a dramatic treat. On Tuesday evening a benefit will be given by the management of the Society of St. Vincent de Paul. Mr. Maguire having generously volunteered his services. For so worthy an object we bespeak a crowded house.

THE BULLIONVILLE FRACAS.—The name of the man shot in Bullionville the other day is Frank Willis. He was formerly engaged in hauling quartz, and also water for the Aston House. We understood yesterday that Willis was not as badly hurt as was at first supposed, and it is now thought that he will recover. The man who shot him escaped, but his accomplice, to whom the pistol was handed after the shooting, is in custody.

RAINS continue to fall. Nearly all night on Friday and a good portion of yesterday the pattering continued. No improvement in the condition of the streets or the roads can be expected while the wet weather continues. The rains, however, can have no other effect than a beneficial one upon the general health of the camp. A few days of sunshine will place streets and roads in good condition.

L. C. GOODSPED, a pioneer in the business, has opened his shop in Wilkin's building, next door to the Postoffice, where he keeps a fine stock of watches, jewelry, etc. Repairing also done.

THERE is a great dearth of business in the Justice's Court. Only one case, and that a civil suit involving a small sum of money, has been before the Court since Christmas. No criminal cases.

NEW SALOON.—Droulette & Beauchamp have just opened the Occident Saloon, Lacour street. It is very neat, having been papered and painted by Holmes & Smith.

FUNERAL.—The remains of Captain W. H. Henderson were interred yesterday, but owing to the bad state of the streets only a few were able to attend.

THEATRICAL.—Engagements are closed with some of the most celebrated artists on the coast for Pocie, whose appearance here will be duly published.

DUKE, from Hamilton, to-day: Frank Taglebeu and Harlow Thomas.

Cultivated Cranberries at Clute & Young's.

HOUSE AND LOT TO BE RAFFLED.—Tickets for the raffle of Jesse Heene's house, lot and furniture, on Cedar street, can be procured at all the saloons in town. George Davis will engineer the raffle. Buy a ticket, and get a house and lot, with household furniture.

TO THE LADIES.—Charles Casters, in the San Jose House, begs to inform the ladies of Pocie that he received by last night's stage a number of switches, besides other articles for the ladies.

J. F. KOPP is now engaged in the Hair-dressing establishment of Charles Casters, San Jose House. Old friends and new patrons are requested to call and see for themselves.

Just opened—Jas. Finlayson's New Dry Good's store, opposite J. J. Halpin & Co., Main street.

For jewelry presents for the Christmas Holidays, go to W. Manning's, opposite Wells, Fargo & Co.

Black walnut sets and bedroom sets at Ward's.

Parlor sets of furniture at Ward's.

Carpets and oil cloths at Ward's.

Go to Alexander's for your Drugs.

## RESTAURANT FOR SALE.

A RESTAURANT, centrally located, and doing business equal to any in Pocie, is offered for sale, on account of the proprietor being about to leave the town. For particulars inquire at this office.
